

Easirail Wall to Floor Step Kits

Wall to floor 1 Step Kit

Wall to floor handrail to fit single step projecting
270mm – 300mm

Wall to floor 2 Step Kit

Wall to floor handrail to fit two steps projecting
540mm – 600mm

Wall to floor 3 Step Kit

Wall to floor handrail to fit three steps projecting
820mm – 900mm

Code	Description
ER-WF1	Wall to Floor step kit includes ER-VP9T, UCON, H5, ER-SBKT, HEC
ER-WF2	Wall to Floor step kit includes ER-VP9T, UCON, H8, ER-SBKT, HEC
ER-WF3	Wall to Floor step kit includes ER-VP9T, UCON, H11, ER-SBKT, HEC

Easirail Posts

Our three adjustable posts are either surface mounted by securing directly to the ground or permanently fixed into concrete. The high grade stainless steel thread provides up to 40mm vertical adjustment, making an installation even easier when the ground is not running quite level.

They easily incorporate an inset midrail (using our ER-MBKT) and satisfy all access regulations. The termination post which is secured to the ground, provides an alternate means of finishing a handrail without a return loop or overhang.

Stainless adjustment thread 600mm high midrail

Code	Description	Box Quantity
ER-VP9	900mm Vertical Post - floor fixed post with a stainless steel height adjustable pivoting bracket (fixings not included)	10
ER-VP14	1400mm Vertical Post - can be set into concrete or attached to a side wall and complete with a stainless steel height adjustable pivoting bracket	5
ER-VP18	1800mm Vertical Post - can be set into concrete or attached to a side wall and complete with a stainless steel height adjustable pivoting bracket	5
ER-VP9T	900mm Vertical Termination Post - provides termination of a 900mm handrail straight to ground; screwed/bolted directly to the floor	10

Easirail Handrails

Our 42mm handrail tube is attached directly to the posts and brackets using 4.8mm domed rivets providing a quick, strong and tamper resistant method of attachment. Additional rivets can be used to provide enhanced security, if required.

Code	Description	Box Quantity
H1	100mm Handrail - provides a simple termination with a CCON and HEC	20
H2	200mm Handrail	20
H3	300mm Handrail	20
H4	400mm Handrail	20
H5	500mm Handrail	10
H6	600mm Handrail	10
H7	700mm Handrail	10
H8	800mm Handrail	10
H9	900mm Handrail	10
H10	1000mm Handrail	10
H11	1100mm Handrail	10
H12	1200mm Handrail	10
H15	1500mm Handrail	5
H20	2000mm Handrail	5
H30	3000mm Handrail	5
HEC	Handrail End Cap - Inserts into the open end of the rail	40
VHEC	Vinyl Handrail End Cap - Covers the open end of a handrail	40
ER-TE	Termination Rail - used to loop to the midrail	10

Easirail Brackets

Our range of brackets provide the ability to attach a handrail to the wall, vertically or horizontally whilst the midrail bracket attaches to the adjustable posts creating a 600mm high midrail.

Code	Description	Box Quantity
ER-HBKT	Handrail Bracket - Attaches rail to a wall allowing horizontal angle adjustment	20
ER-MBKT	Midrail Bracket - Attaches to a vertical post providing a 600mm high midrail	20
ER-SBKT	Step Bracket - Attaches rail to a wall allowing vertical angle adjustment	20
ER-SWBKT	Side Wall Bracket - Attaches a post to a wall; more than one can be used if required	20
ER-WBKT	Wall Bracket - Heavy duty stainless steel bracket to attach a post to a wall	5

Easirail Connectors

Our standard connectors provide a friction fit and are manufactured from a UV resistant, hard wearing thermoplastic outer cover and nylon inner collar.

Code	Description	Box Quantity
ACON	Connecting rails that meet at an angle (~1:12).	10
CCON	Connecting rails that meet at 90°	10
SCON	Connecting straight rails	10
WCON	Connecting rails to the wall	10

Our stainless steel connectors are precision manufactured from an external grade material ensuring longevity and are simply glued into position, providing an extremely strong fix.

Code	Description	Box Quantity
UCON	Adjustable handrail connector 90 - 180°	5
TCON	Tee Connector (stainless steel) - Connecting straight rails and a post.	5
SWCON	Step Wall Connector (stainless steel) - Connecting rails at an angle to a wall	5
CTCON	Corner Tee Connector (stainless steel) - Connecting rails at 90° and a post.	5
SSTCON	Straight Connector (stainless steel) - Connecting two straight rails	5
MCON	Multi Angle Connector (stainless steel) - Connecting a post and rails at a horizontal and vertical angle	5

Easirail Accessories

Our 4.8mm rivets provide an ultra strong method of attachment; simply drill a 5mm hole before setting the rivet, providing a secure fix - a cordless Rivet Gun significantly reduces the installation time. The fast set glue is used with our stainless steel range of connectors providing a seamless, permanent fix.

Code	Description
ER-G3-401	Loctite fast set glue (3ml)
PB2500	Battery rivet tool with 18v 1.5Ah battery & charger
RVT	Zinc coated domed head ultra strong rivets
GREASE	Grease 400ml
SPRAY	RAL Matched Spray 6005
